Jaguar TCS Racing Announces Schaeffler as Official Supplier

HERZOGENAURACH , 2026-03-19.

- Jaguar TCS Racing has signed a multi-year agreement with Schaeffler as an Official Supplier
- The agreement underscores Schaeffler's position as a leading innovator in next-generation electric mobility
- This announcement strengthens Jaguar TCS Racing's world-class partner portfolio as the team pursues further podiums and wins in Season 12 of the ABB FIA Formula E World Championship
- The intelligence Schaeffler gains in Formula E becomes the blueprint for the next era of advanced and sustainable electric mobility

Jaguar TCS Racing has joined forces with Schaeffler as Official Supplier on a multi-year agreement.

A renowned innovator, Schaeffler develops advanced technologies and solutions that drive progress in motion and electric mobility. With strong capabilities in efficiency, performance and system integration, the company offers an extensive technology portfolio that supports the development of next-generation electric mobility systems.

Drawing on Schaeffler's long-standing experience in automotive engineering and motorsport, the collaboration with Jaguar TCS Racing will enable both sides to explore new approaches for high performance electric drive systems and future-oriented motion technologies.

Jaguar TCS Racing and Schaeffler have strong shared values, and this multi-year agreement further strengthens the team's world-class global partner and supplier network, as Jaguar TCS Racing continues its push for podiums and wins in Season 12 of the ABB FIA Formula E World Championship.

Ian James, Jaguar TCS Racing Team Principal, said: "We are pleased to welcome Schaeffler to our ever-growing world-class roster of suppliers and partners at Jaguar TCS Racing. Schaeffler's expertise and credentials in high performance electric drive systems are highly regarded. We look forward to growing our partnership across this multi-year agreement with our shared commitment to pushing the boundaries of performance, reliability and e-mobility."

Thomas Stierle, CEO of E-Mobility Schaeffler, said: "Every lap in Formula E has a clear mission: transforming efficiency, performance and sustainability into breakthrough technologies that make future electric vehicles truly thrilling to drive. What happens on the track doesn't stay on the track. The intelligence we gain in Formula E becomes the blueprint for the next era of advanced and sustainable electric mobility. Racing remains the fastest catalyst for technologies with real-world impact. We look forward to a partnership that pushes the boundaries of what's possible."

Schaeffler Group – We pioneer motion: The Schaeffler Group has been driving forward groundbreaking inventions and developments in the field of motion technology for 80 years. With innovative technologies, products, and services for electric mobility, CO₂-efficient drives, chassis solutions and renewable energies, the company is a reliable partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle. Schaeffler describes its comprehensive range of products and services by means of eight product families: From bearing solutions and all types of linear guidance systems through to repair and monitoring services. Schaeffler is with around 110,000 employees and more than 250 locations in 55 countries, one of the world's largest family-owned companies and one of Germany's most innovative companies.
